PROJECT PORTFOLIO

- **The House of Us** – System

  Category: Web Application
  Client: Customers
  Descrition: The “The House Of Us” system is a robust online platform designed to facilitate the buying and selling of furniture products. It provides a convenient and user-friendly interface for customers to browse, select, and purchase furniture items from the comfort of their homes.

- **EduBlogger** – System

  Category: Web Application
  Client: CSU Students
  Description: EduBlogger is a welcoming platform where students can express themselves without judgment, promoting individuality and mental well-being. It offers a safe space for sharing and connecting with peers, fostering a community where self-discovery and mental wellness thrive, promoting personal growth and academic success.

About the Team
EduBlogger: Team B from Caraga State University, a group of passionate 3rd-year college students from Caraga State University behind EduBlogger. Comprising Shekainah, Julliane, Lizel, Yudane, and Dave, we're committed to nurturing student well-being by providing a compassionate space for self-expression and personal growth. EduBlogger goes beyond education; it's a sanctuary where students can freely share their thoughts and feelings without judgment. Together, we aim to empower students and create a thriving community of mental wellness and resilience.
